

Diabetes Mellitus: Current Research and Future Perspectives 2nd Edition

Guest Editor:

Dr. Roberto Franceschi

Pediatric Unit, S. Chiara Hospital,
38122 Trento, Italy

Deadline for manuscript
submissions:

25 September 2024

Message from the Guest Editor

The heterogeneity in age at onset and clinical presentation within the same form of diabetes, differences in the response to treatments in patients with the same phenotype, and the variability in the course of the disease require personalized management.

In the last 10 years, genetic, metabolomic, immunologic, and other sophisticated tests have become less expensive and more widespread; therefore, it is expected that precision medicine will become increasingly applied to diabetes care.

This Special Issue of *Journal of Personalized Medicine* aims to highlight the current state of precision medicine applied to diabetes to show some of the latest findings and future perspectives and integrate expertise from basic science, clinical, and population-based approaches. Topics of interest include novel insights into gene testing, polymorphisms and bioinformatics, metabolites and intestinal microbiome analysis, as well as their association with the risk of disease, drug metabolism, or disease complications.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
