Hospital, Vasilissis Sofias Avenue  
80, 11528 Athens, Greece

Deadline for manuscript  
submissions:

**25 March 2025**

### Message from the Guest Editors

We welcome original research and reviews on topics including, but not limited to, the following:

- Personalized diagnostic tools: innovations in imaging and biomarker identification;
- Tailored surgical techniques: advances in minimally invasive and robotic surgeries tailored to individual patient profiles;
- Post-operative care and monitoring: personalized approaches to enhance recovery and reduce recurrence;
- Ethical, legal, and social implications: considerations of privacy, consent, and equity in personalized gynecological care.

This Special Issue aims to foster a comprehensive understanding of how precision medicine can be effectively incorporated into gynecological endoscopy to offer tailored, effective, and less invasive treatment options.

We look forward to receiving your contributions that explore these themes and help shape the future of gynecological healthcare through precision medicine.

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
