### Message from the Guest Editors

Orphan drug can be defined as a medicine for the diagnosis, prevention or treatment of a life-threatening or chronically debilitating condition that is rare (affecting not more than five in 10,000 people) or where the medicine is unlikely to generate sufficient profit to justify research and development costs.

In this Special Issue on “Real-World Perspective on Effectiveness, Safety, and Costs of Orphan Medicines in Neurology”, we aim to publish outstanding contributions in the key fields covered by the journal, which will make a great contribution to the community.

Thus, we believe that the JPM is an excellent platform to support such overview on the current real-world knowledge and novelties regarding effectiveness, safety and costs of orphan medicines in neurology.

We hope that our special issue will draw the attention of the readers, scientists, stakeholders and clinicians in general.

Deadline for manuscript submissions:

**25 March 2025**

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. David Alan Rizzieri

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
