de Barcelon, Barcelona, Spain

Deadline for manuscript
submissions:

10 August 2024

Message from the Guest Editors

Interventional radiotherapy (brachytherapy) started after the discovery of radium by Maria Slodowoska Curie, and, at present, has clear indications for treatment in almost tumour sites. The present Special Issue is one of the few publications dedicated to interventional radiotherapy in Europe.

The aim of this Special Issue is to present all the relevant clinical aspects of brachytherapy in all the tumour sites in a review or article format, considering future perspectives. To this end, clinical and medical brachytherapists work together with very specialised medical physicists, who are indispensable for the techniques' evolution.

The submission of innovative clinical works in clinical practice and in physics, considering all the tumour sites is encouraged. Contributions exploring biological biomarkers and omics' brachytherapy, as well Montecarlo aspects in vivo dosimetry, among others, are welcome.

We are soliciting reviews and original articles, and look forward to receiving your contributions.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
