Università degli Studi di Milano,
Milan, Italy

Deadline for manuscript submissions:
closed (20 May 2024)

Message from the Guest Editor

We cordially invite you to submit your original research and review articles for an upcoming Special Issue of the *Journal of Personalized Medicine*, focused on "Precision Medicine in Head and Neck Cancer". This Special Issue aims to report on the latest advancements and breakthroughs in the field, highlighting innovative diagnostic and therapeutic approaches.

Monoclonal antibodies for treating head and neck cancer, as well as applications of artificial intelligence and large language models to assist in cancer diagnosis, treatment, and patient care, are the most widely known developments towards personalized medicine in head and neck oncology. However, these are just a few examples, and we welcome a diverse range of topics related to personalized medicine in head and neck cancer.

We look forward to receiving your valuable contributions to this Special Issue and to advancing our collective understanding of personalized medicine in head and neck cancer.

Special Issue

Message from the Editor-in-Chief

Journal of Personalized Medicine (*JPM*; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.
Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
