Gynecological Oncology: Personalized Diagnosis and Therapy

Guest Editors:

Dr. Stuart Rundle

Department of Gynaecological Oncology, Queen Elizabeth Hospital, Gateshead NE9 6SX, UK

Dr. Ali Kucukmetin

Northern Gynaecological Oncology Cenrte, Queen Elizabeth Hospital, Gateshead NE9 6SX, UK

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues,

The treatment of gynaecological cancers has, in recent years, seen a transformation away from universal radical extirpative surgery, non-conformal radiotherapy techniques, and a default reliance on platinum-based chemotherapy agents to a wide range of precision medical and surgical interventions, individually targeting both the patient and their cancer.

From vaccination and screening for cervical dysplasia and cancer through HPV DNA and RNA techniques to informing drug therapies and prophylactic surgery in endometrial cancer and ovarian cancer, genomic medicine is driving the personalisation of targeted cancer prevention and treatments.

This Special Issue welcomes submissions that contain original research in the translational and clinical domains or review articles that demonstrate innovation towards the personalisation of gynaecological cancer detection, prevention, and treatment across surgical, radiation, and medical oncology fields and palliative medicine.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
