Otorhinolaryngology-Head &
Neck Surgery, Hallym University
Sacred Heart Hospital, Hallym
University College of Medicine,
Anyang 14068, Republic of Korea

Deadline for manuscript
submissions:

25 February 2025

Message from the Guest Editor

Otorhinolaryngology (head and neck surgery), focusing on ear, nose, and throat (ENT) disorders, is a field that has significantly benefited from advances in personalized medicine. Initially, the management of ENT disorders relied heavily on broad-spectrum medications and invasive surgical procedures with variable outcomes. The introduction of genomic medicine, improved imaging techniques, and advanced surgical technologies have transformed the landscape.

The Special Issue aims to explore and disseminate cutting-edge research that highlights the shift towards personalized care in the field of otorhinolaryngology. This Special Issue seeks to foster a deeper understanding of how personalized approaches can be effectively implemented in otorhinolaryngology, aiming to enhance patient outcomes through more tailored and precise medical care. By featuring a mix of research articles, reviews, and case studies, this issue aims to be a valuable resource for clinicians, researchers, and healthcare professionals committed to advancing the field of personalized medicine in otorhinolaryngology. Original research, review articles, and communications are welcomed.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
