Personalized Diagnosis and Therapy in Gynecology and Obstetrics: From Perinatal Medicine to Gynecologic Oncology

Guest Editors:

Dr. Meletios P. Nigdelis

Department of Gynecology, Obstetrics and Reproductive Medicine, Saarland University Medical Center, Homburg, Germany

Prof. Dr. Dimitrios G. Goulis

Unit of Reproductive Endocrinology, 1st Department of Obstetrics and Gynecology, Medical School, Aristotle University of Thessaloniki, Thessaloniki, Greece

Deadline for manuscript submissions:

20 March 2025

Message from the Guest Editors

Recent advancements in medical research and technology have significantly transformed the landscape of gynecology and obstetrics. Accurate non-invasive diagnostics for obstetric and gynecologic diseases, such as preeclampsia and endometriosis, enable the individualization of treatment plans. Furthermore, the recent identification of molecular profiles in endometrial cancer has paved new pathways in gynecologic oncology.

The integration of personalized medicine into obstetrics and gynecology promises to revolutionize patient care, offering tailored approaches. We encourage the submission of various article types, including original research, reviews, clinical trials, case studies, and commentaries that address the personalized approaches in prenatal care, reproductive endocrinology, bening gynecology, gynecologic oncology, and beyond.

We believe that this Special Issue will serve as a valuable resource for clinicians, researchers, and healthcare professionals dedicated to advancing women's health. By embracing personalized diagnosis and therapy, we can move closer to achieving optimal health outcomes for every patient.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
