Deadline for manuscript submissions:

25 December 2024

Message from the Guest Editor

Adolescents and young adults (AYA, ages 15–39 years) affected by cancer have unique treatment, survivorship, and palliation concerns. Precision medicine for adolescent and young adult (AYA) oncology is a rapidly growing field. With a focus on the unique challenges that this age group presents, the issue highlights the importance of precision medicine in improving outcomes and reducing side effects.

This Special Issue presents cutting-edge research and clinical advances in precision medicine for AYA oncology. Articles in this issue cover a range of topics, including genomic profiling, targeted therapies, and supportive care for AYA patients. This Special Issue also discusses the use of immunotherapy in AYA oncology, including the challenges and opportunities of using such therapies on this patient population. Original papers are especially encouraged; however, high-level systematic reviews or meta-analyses will also be considered for publication.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
