Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editor

Infertility affects around 10–15% of couples worldwide, with a constantly growing trend in Western countries. Over the last decades, reproductive medicine has undergone a dramatic increase in several clinical and technological upgrades based on translational research discoveries.

In view of the presentation of current trends and future challenges in assisted reproduction, the aim of this Special Issue is to gather different and innovative perspectives for the treatment of human infertility, including both clinical and laboratory aspects. This includes the application of new protocols for ovarian stimulation, gamete and embryo culture and cryopreservation, embryo assessment via cutting-edge technologies such as time-lapse microscopy and artificial intelligence, as well as new and non-invasive applications of preimplantation genetic testing.

In this Special Issue, we would like to invite original clinical and basic research articles, meta-analyses and systematic reviews, aiming to update evidence on the future of assisted reproduction that embraces gynecological, andrological and embryological interests.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
