Deadline for manuscript submissions:

closed (10 March 2021)

Message from the Guest Editor

The coronavirus, SARS-CoV-2 is pathogenic to humans and may be associated to severe acute respiratory syndrome, SARS. Its presence may be asymptomatic or in the coronavirus disease 2019 (COVID-19), symptoms may range from mild to severe.

SARS-CoV-2 may also be associated with non-respiratory clinical features. The *Journal of Personalized Medicine* is now opening a Special Issue that is fully dedicated to the related complications such as immune perturbation/cytokine storm, Kawasaki disease-like form, viral coagulopathy, pulmonary embolism, strokeneurological, multiorgan failure and impact of SARS-CoV-2 genomic variability on symptoms.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
