Message from the Guest Editors

Dear Colleagues,

Despite valuable advances, the field of emergency and intensive care medicine is still burdened by a high rate of mortality and disabilities.

This Special Issue of the *Journal of Personalized Medicine* will host valuable contributions aimed at understanding the mechanisms of emergency and critical diseases, explaining the variety of possible responses of the population to insults and current therapies, and hypothesizing risk stratification and tailored approaches to medical issues.

We invite worldwide investigators to contribute with original research articles and reviews on clinical and preclinical experimental observations. Specific attention is dedicated to evidence from experimental and clinical trials, controversial topics, gold standards and experimental treatments and interventions, risk factors, and personalized approaches.

Dr. Laura Ruggeri

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
