Deadline for manuscript
submissions:

15 April 2025

Message from the Guest Editors

Dermatology is the medical branch that studies the skin, dealing with the diagnosis, treatment, and prevention of diseases and disorders that affect the skin, hair, nails, and mucous membranes.

The large variety of causes and triggers behind these types of health issues represents a challenge for both clinicians and researchers: first, in finding the right diagnosis, and second, in choosing the most suitable treatment option for the patient. In this light, we value new research that refines the diagnostic process and enhances diagnostic accuracy for a tailored treatment.

Therefore, up-to-date, high-quality studies, including original research and reviews, that may offer a therapeutic approach that is personalized to the needs of the patient are welcome for submission. By contributing to this Special Issue, you will help expand the body of knowledge in dermatology and encourage the exchange of valuable insights within the scientific community.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
