Oncology and Hematology,
University Children's Hospital,
Jagiellonian University Medical
College, 31-008 Krakow, Poland

Deadline for manuscript
submissions:

25 April 2025

Message from the Guest Editor

Recent advancements have significantly improved diagnostics and therapies in pediatric hematology and hematologic malignancies. Immunotherapies, hematopoietic stem cell transplantation in nonmalignant and malignant hematological disorders, the introduction of long half-life coagulation products for patients with hemophilia, and many others have significantly changed the picture of pediatric hematology. However, there is a continuous need for further development in many fields of patient care to improve the prognosis and quality of life for children with hematologic disorders and malignancies.

The Special Issue aims to highlight the latest advances in the clinical, genetic, and therapeutic aspects of children with hematologic disorders or malignancies to provide better information to further improve diagnosis and treatment.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
