Precision Medicine for Breast Cancer

Guest Editor:

Dr. Maria A. Loizidou

Cyprus Institute of Neurology and Genetics, Nicosia, Cyprus

Deadline for manuscript submissions:

closed (20 August 2022)

Message from the Guest Editor

Breast cancer is considered a global public health priority. It has recently overtaken lung cancer as the world's mostly commonly diagnosed cancer. Over the past few years, personalized approaches to the prevention or early detection of breast cancer have emerged as highly promising strategies. In addition, the use of genomics and molecular diagnostics to direct the selection of the most appropriate treatment has become an important component of breast cancer care. These advances have had a major impact on breast cancer patients' quality of life and survival. This Special Issue of the Journal of Personalized Medicine aims to highlight the latest research on: The estimation of individualized breast cancer risk based on genetic, lifestyle and environmental factors; Risk-based breast cancer prevention and screening programmes; Personalized treatments for breast cancer including immunotherapy, targeted therapies postoperative radiation therapy.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
