### Message from the Guest Editors

Dear Colleagues,

Since December 2019, there has been an outbreak of coronavirus-2 (CoV-2) disease (COVID-19), responsible for a severe acute respiratory syndrome, often requiring hospital admission for ventilatory and medical support. Investigation of COVID-19 characteristics and outcomes has resulted in an increasing awareness and fast-growing knowledge about the management of the disease. This Special Issues of *Journal of Personalized Medicine* aims to update the current evidence and collect the latest findings on COVID-19 pathophysiology. Particular attention will be paid to original research articles and state-of-the-art reviews focused on COVID-19 clinical presentation, pathophysiology, and therapeutic approaches.

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
