

Genetic Counseling and Genetic Testing in Genomic Era

Guest Editor:

Dr. Leila Jamal

Genomics Education Specialist,
Genetics Branch, Center for
Cancer Research, National
Cancer Institute, Adjunct Faculty,
Department of Bioethics,
National Institutes of Health,
Bethesda, MD, USA

Deadline for manuscript
submissions:

closed (20 November 2023)

Message from the Guest Editor

The aim of this Special Issue will be to highlight innovations in genetic counseling service delivery and outcomes that address the expansion of genomic testing in all aspects of healthcare and research. The journal is interested in original research articles, review articles, and commentaries addressing emerging professional issues related to genetic counseling. We will not accept work that has been previously published or which is currently being considered for publication elsewhere. Authors from any healthcare, social science, or public health discipline are encouraged to submit articles. We especially welcome articles that address topics related to diversity, equity, and inclusion in genetic counseling.
