Deadline for manuscript submissions:
closed (31 May 2022)

Message from the Guest Editors

The last 50 years have seen a significant rise in the global burden of asthma and allergic diseases, creating impact on both societal and individual patient levels. In parallel, there is now a growing understanding of the diverse nature of both asthma and allergic disease and the fact that these terms cover a spectrum of underlying phenotypes with differing mechanistic foundations. From this framework has arisen the drive to adopt personalised treatment approaches to successfully manage asthma and allergy in the 21st Century. This Special Issue of the *Journal of Personalized Medicine* aims to provide a clinically relevant understanding of advances in the personalised medicine approach to asthma and allergy using basic science, epidemiological, and clinical approaches. We would like to invite your contributions as a key expert in the field to this Special Issue and welcome your input with either original research articles or review articles. This is a great opportunity to publish your work as part of a core collection of articles on advances in asthma and allergy in the context of personalised medicine. So do please join us in this Special Issue.

Message from the Editor-in-Chief

Journal of Personalized Medicine (*JPM*; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.
Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
