Deadline for manuscript submissions:

**closed (31 May 2022)**

### Message from the Guest Editor

Research in the field of atherosclerosis has been actively carried out for over 150 years. However, there are currently black holes in our knowledge of the disease. This Special Issue of the *Journal of Personalized Medicine* aims to show some of the latest findings in the field of atherosclerosis. We invite researchers in this field to submit original research and review articles, including studies on the discovery of novel biomarkers (including genetic and epigenetic biomarkers) and new targets for therapeutic interventions; assessment of the treatment efficacy and outcomes in patients with different genetic forms of monogenic dyslipidemia; the contribution of the microbiome to disease development. Scientific advances in the field of atherosclerosis will provide the path towards developing personalized medicine.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
