Deadline for manuscript
submissions:

closed (20 September 2021)

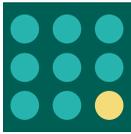

Message from the Guest Editors

Oral health is now recognized as an important sentinel element for the preservation and maintenance of general health, and the study of genomics, proteomics, and metabolomics (among the various involved sciences) seems to be one of the most important factors in gaining new knowledge in the field of personalized dental medicine. All the abovementioned elements, along with the effects of the microbiome and the importance of its balance, for the development of preventive and therapeutic strategies to face oral diseases, constitute the essential framework of this Special Issue.

The aim of this Special Issue is to provide insight into recent advances in the field of personalized dental medicine. Potential topics in this Special Issue include but are not limited to in-vitro and clinical research on genetics, oral health, oral pathology, oral surgery, and oral microbiology.

Studies incorporating a new approach or providing novel information are high-priority. Systematic and narrative reviews in the field of dentistry focusing mainly on infectious disease are also welcome. It is our pleasure to invite you to contribute to this Special Issue.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
