Message from the Guest Editors

We are honored to guest edit a Special Issue regarding the surgical oncology of the upper digestive system. While many systemic therapies have been prospectively developed for malignancies of the upper digestive system, there is still a great number of unmet needs in the field of surgical oncology. Radical surgical resection remains the cornerstone treatment for cancers of the upper digestive system. In this issue, we cordially invite all researchers to contribute relevant clinical and basic studies regarding upper digestive cancers including esophagus, stomach, small intestine, liver, biliary tract, and pancreas. Studies on surgical technique, improvement of clinical practice, application of cutting-edge technology, and perioperative management are also in the scope of this Special Issue. Original and review articles (systematic and narrative approaches) are also welcome. Papers that meet the criteria of the peer-reviewed process will be accepted for publication. We hope that this Special Issue will enrich our knowledge of upper digestive surgical oncology and further improve the quality of cancer patient care in surgery.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
