Deadline for manuscript
submissions:
closed (15 November 2020)

Message from the Guest Editor

I would like to invite you to contribute manuscripts for a Special Issue in the Journal of Personalized Medicine covering the past, the present, and the future of molecular pathology in oncology.

Molecular pathology is transforming clinical pathology and contributes to establishing a histopathological diagnosis and disease classification, provides prognostic information, identifies targets for therapy, and reveals mechanisms of resistance to therapy.

This Special Issue on the molecular pathology of cancer aims to provide an overview of different aspects of clinical molecular pathology and encompasses all oncologic and hemato-oncologic diseases. Contributions may address the description of the molecular mechanism of neoplastic diseases in association with their clinical utility, the role of molecular pathology in personalized oncology, laboratory techniques and assays in molecular pathology, bioinformatics, quality control, and potential ethical and legal considerations. Case reports, reviews, and original research articles are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
