Deadline for manuscript  
submissions:

**closed (1 July 2022)**

### Message from the Guest Editor

Dear Colleagues,

Vascular disease treatment is currently an area of great innovation; we are currently at the threshold of a new era of minimally invasive approaches. However, despite the great potential development in the expert technical execution of operations and anticipation of complications, vascular surgery patients are still affected by serious postoperative complications. Early identification and management of these complications are essential to improve the overall outcome of these patients. This Special Issue of the *Journal of Personalized Medicine* aims to highlight the principles of postoperative care, complications, and their management in vascular surgery patients.

Dr. Giovanni Tinelli  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
