## Systems Radiology and Personalized Medicine

Guest Editors:

**Prof. Dr. Pim A. de Jong**

Department of Radiology,  
Utrecht University Medical  
Center, Utrecht, The Netherlands

**Dr. Wouter Foppen**

Department of Radiology,  
University Medical Center  
Utrecht, HP E01.132, Post Office  
Box 85500, 3508 GA, Utrecht, The  
Netherlands

**Dr. Nelleke Tolboom**

Nuclear medicine physician,  
Department of Radiology,  
Utrecht University Medical  
Center, HP E01.132, Post Office  
Box 85500, 3508 GA, Utrecht, The  
Netherlands

Deadline for manuscript  
submissions:

**closed (30 June 2021)**

### Message from the Guest Editors

**Background:** Many diseases and pathophysiological processes cross organ borders.

**Aim and scope:** This Special Issue looks for articles that show the strengths and weaknesses of structural and functional whole-body imaging for personalized medicine.

**History:** Medicine has evolved into a high level of specialization using very detailed imaging of organs. This has solved impressively health-related problems linked to many acute single-organ diseases. However, the organ-based approach is challenging when considering disease prevention and caring for patients with systemic diseases or multiple co-morbidities.

**Cutting-edge researches:** Systems Medicine; Artificial intelligence; Cross-sectional imaging; Well-being and staying healthy; Chronic disease and aging.

For this Special Issue, we are looking for papers that use quantitative (whole-body) imaging for personalized medicine to treat systemic diseases in humans.

2. Division of Hematologic  
Malignancies and Cellular  
Therapy, Duke University,  
Durham, NC 27710, USA

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
