Message from the Guest Editor

Trauma management requires a multidisciplinary team with experience. Recent advances in trauma and critical care, including new concepts of trauma-induced coagulopathy, transfusion medicine, vascular interventions, imaging technology, and novel devices, may decrease the mortality and morbidity of trauma victims and avoid tragedy.

Rapid and accurate diagnosis with early treatment is the cornerstone of dealing with trauma patients. However, the complexity of patients with multiple traumas and the anarchy of the emergency room make this a challenge. Therefore, the guidelines and algorithms need to be personalized considering age, gender, race, mechanism, the extent and severity of injuries, comorbidities, culture, and other individual factors. Only personalized management will lead to the most favorable outcome.

This SI embraces, but is not limited to the following topics of trauma and acute care surgery, including the diagnosis and treatment algorithm of any specific injured organs, novel technology and the intervention of trauma management, rehabilitation and recovery management of trauma patients, innovation of trauma and critical care, and personalized trauma care.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
