Message from the Guest Editors

This Special Issue of JRFM aims to showcase research in sustainable finance development and adoption throughout the financial world. Research papers are welcome to focus on innovative climate risk assessment tools and frameworks, accessibility to financial services, financial policies that promote sustainable practices, the integration of environmental, social, and governance (ESG) criteria into investment decisions, transparent and reliable sustainability reporting, cost benefits of adopting sustainable approaches, and how sustainable finance plays a pivotal role in mobilizing the resources necessary to build resilience against climate risks and support vulnerable communities. We strongly encourage contributions whose findings are backed by solid empirical studies. Any overlap of these topics with any other journal is unintentional.
