# **Exploring Disruptive Technologies, Sustainability and Ethical Challenges in Accounting and Finance**

Guest Editor:

### Dr. Wee Meng Eric Lee

Accounting Department, University of Northern Iowa, Cedar Falls, IA 50614-0127, USA

Deadline for manuscript submissions:

15 November 2024

## **Message from the Guest Editor**

This Special Issue aims to collect the latest thoughtprovoking research in the field of disruptive technologies, sustainability and business ethics as they relate to accounting and finance. Papers submitted for publication consideration may examine the risks and/or opportunities posed by disruptive/emerging technologies on various sustainability, corporate social responsibilities, business ethics, and accounting and financial management issues, using quantitative (archival, experimental, or survey) or qualitative methodology. All articles published should advance knowledge in accounting or finance, and are of interest to academics and/or practitioners. With the advent of global big data proliferation, this Special Issue welcomes papers that examine cultural and geographical diversity in studies related to both new and old technologies. Papers can investigate ways to better understand the risks and/or opportunities in technology uses that pervade human interactions, the corporate workplace, or the online marketplace, affecting accounting and/or financial management issues that have moral, social, and economic implications to supplier and/or industry relationships worldwide

## **Editor-in-Chief**

## **Prof. Dr. Thanasis Stengos**

Department of Economics and Finance, University of Guelph, Guelph, ON N1G2W1, Canada

# **Message from the Editor-in-Chief**

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, EconBiz, EconLit, RePEc, and other databases. **Journal Rank:** CiteScore - Q1 (Business, Management and Accounting (miscellaneous))
