submissions:  
**closed (21 March 2021)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue is focused on how sustainability requirements will play an important role in the supply chain designs and models of the future. Non-conformance with sustainability will be a major supply chain risk of the future that will potentially disrupt supply chain operations. There are implications for supply chains to meet sustainability criteria, thus affecting and influencing procurement, international trade, legislation, supplier development, innovation, and operations. This paradigm will also affect the financial bottom line and costs.

The Special Issue will accept both qualitative and quantitative methodologies, including theoretical, conceptual, empirical, and analytical methodologies.

Prof. Dr. Samir Dani

## Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, EconBiz, EconLit, RePEc, and other databases.

**Journal Rank:** CiteScore - Q1 (Business, Management and Accounting (miscellaneous))
