Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collate original contributions (original research articles and review articles) on technological and social innovations in urban ecosystems, especially from the perspective of green and blue infrastructure, such as the following:

Technologies applied in urban ecosystems;
innovative methodologies for evaluating ecological
patterns;
social innovations involving urban forests;
ecological processes in urban ecosystems;
urban biodiversity assessment;
socio-environmental aspects in urban ecosystems.

This SI is in cooperation with a conference (4th Latin American Forum on Urban Forests: Social and Technological Innovation in Urban Forestry) and welcomes submissions from participants of the conference.

We look forward to receiving your original research articles and reviews.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
