### Message from the Guest Editors

Dear Colleagues,

The objective of this special volume is to present investigations that address any of the indicated problems, and analyses or projects aimed at achieving the sustainability of natural resources related to soil and geomorphology. Specifically, articles related to the following topics are welcome:

- Sustainable land management: analyses of proposals to be implemented or studies of initiatives that have already been carried out.
- Soil mapping;
- Soil quality;
- Natural risks and integration in land planning;
- Applied geomorphology.

Dr. Marco Criado

Prof. Dr. Antonio Miguel Martínez-Graña

Dr. Leticia Merchan

*Guest Editors*

Deadline for manuscript  
submissions:

**closed (11 December 2023)**

*land*

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Christine Fürst

Institute for Geosciences and  
Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
