submissions:

31 January 2025

Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to celebrate 10 years of “World Soil Day”. Papers (original research articles and review papers) are encouraged that provide an overview of soil health and successful activities on increasing soil literacy and public engagement in different parts of the world. The scope is to share ideas that have worked, understand how challenges were overcome, how to best to engage key stakeholders (e.g. industry, NGOs, public administrations, land owners) and to identify gaps. Examples can include

- initiatives related to the protection and restoration of soil, including those co-developed with citizens (including citizen science initiatives),
- the communication of relevant knowledge, awareness raising and outreach activities related to soil education
- relevant artistic endeavours, products, performances and audio-visual activities relating to soil
- communication science focusing on soils

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
