## Feature Papers for 'Land Socio-Economic and Political Issues' Section

Guest Editors:

**Prof. Dr. Hossein Azadi**

Department of Economics and Rural Development, Gembloux Agro-Bio Tech, University of Liège, 5030 Gembloux, Belgium

**Prof. Dr. Rando Värnik**

Institute of Economy and Social Sciences, Estonian University of Life Sciences, 51006 Tartu, Estonia

**Dr. Ants-Hannes Viira**

Institute of Agricultural and Environmental Sciences, Estonian University of Life Sciences, 51006 Tartu, Estonia

Deadline for manuscript submissions:

**closed (30 October 2023)**

### Message from the Guest Editors

Understanding land as a coupled human-environment system has become increasingly important in research and policy-making at local, regional, national, and international scales. Research on land systems and their socio-economic and political issues contributes to broader land management by linking land use to the social, economic, and environmental dimensions of sustainability. Recent advances in land science include understanding of human-environment relationships that underpin and drive land system dynamics. These advances led to the measurement and monitoring of land changes, application of geographic information systems, remote sensing, and modelling technologies, and the increased availability of datasets (e.g., time series data). This section of the Special Issue in *Land* will focus on the social, economic, political, legal, physical, and planning aspects of urban and rural land use, different land policies, and the nexus of human-land-environment tied with contemporary and historical land issues.

## Editor-in-Chief

### Prof. Dr. Christine Fürst

Institute for Geosciences and  
Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
