**Prof. Dr. Shibu Jose**

College of Agriculture, Food and  
Natural Resources, 2-44  
Agriculture Bldg., University of  
Missouri, Columbia, MO 65211,  
USA

Deadline for manuscript  
submissions:  
**closed (23 August 2024)**

### Message from the Guest Editors

Environmental sustainability concerns, such as biodiversity conservation, climate change, food security and sustainable energy use, are influenced by agriculture, forestry and land use activities. How humans manage and allocate land for forestry and agriculture, while taking into account the relevant environmental requirements, is central to achieving sustainable development.

This Special Issue invites scholars and practitioners to describe their practical experiences and insights into forestry, agriculture and land allocation, to provide guidance on navigating the challenges of land use sustainability.

We welcome submissions which develop technological, environmental, political, social and economic innovations for rational land allocation for sustainable forestry and agriculture, in order to solve global environmental challenges.

## Editor-in-Chief

### Prof. Dr. Christine Fürst

Institute for Geosciences and  
Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
