Message from the Guest Editors

Dear Colleagues,

The goal of this Special Issue is to collect contributions on fostering urban regeneration pathways via urban, architectural and landscape design projects, aimed at achieving more inclusive, safe, resilient, and sustainable cities.

Accordingly, proposals are invited that address this topic through a reflection in terms of:

- Spaces, with a focus on the scale of the urban district, deepening the interaction between buildings and open spaces in the pursuit of attractive and life-enhancing, as well as inclusive design solutions;
- Actors, in terms of public, public–private, and private different possibilities of intervention and collaboration to urban contexts, urban–rural interactions and/or urban planning and development;
- Processes, concerning proposals of cohesive transformation of built and open spaces, with a focus on urban amenities, social sustainability, and socio-economic inequality.

Prof. Dr. Isabella M. Lami

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
