closed (30 November 2022)

Message from the Guest Editor

Dear Colleagues,

In this Special Issue of *Land*, entitled “Public Spaces and Smart Technologies” we solicit articles dealing with the myriad of facets related to the role of new technologies in shaping public spaces. Public spaces and the activities that take place in them are shaped by social, cultural, economic, environmental, political and design processes.

Thus, we look forward to contributions from a wide range of disciplines. Original research articles and reviews are welcome. Suggested themes and article types include, but are not limited to:

- Impact of new mobility services and autonomous vehicles on the design of public spaces
- The role of technology in mitigating climate change (e.g., heat islands) focusing on public spaces
- How might technology address vulnerability of various populations in public spaces?
- Community management of public open spaces
- Challenges, obstacles, benefits and opportunities for incorporating new technologies in planning, developing, designing and monitoring public open spaces.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
