Message from the Guest Editors

We encourage authors to submit contributions in the following priority areas to this Special Issue of *Land*:

- New approaches to supporting modern trends of efficient land administration systems;
- Policy and strategy development processes in land administration and land management on a national scale;
- Worldwide comparative studies of the implementation of cadastre;
- The societal and/or economic benefits of integrating informal constructions into cadastre;
- The economic impact of geospatial (cadastral) data for supporting all SDGs;
- Security of land tenure against natural and human-induced disasters.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
