GeoAI for Urban Sustainability Monitoring and Analysis

Guest Editors:

Dr. Nan Xu

Dr. Yifu Ou

Dr. Jixiang Liu

Deadline for manuscript submissions:
31 December 2024

Message from the Guest Editors

In this Special Issue, we seek the submission of groundbreaking research and case studies that demonstrate urban-sustainability-related applications and advances in geographic artificial intelligence. Relevant topics include, but are not limited to, the following:

Geospatial artificial intelligence (geospatial AI or GeoAI) for urban land use and land cover mapping;
GeoAI for urban monitoring, modeling, analysis, and prediction;
AI in geostatistics and spatiotemporal urban-related modeling and simulation;
AI For urban-related geospatial data acquisition, precessing, and analysis;
AI For sustainability monitoring and evaluation in urban areas;
Big data and machine learning for urban studies.

Special Issue

Editor-in-Chief

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120
Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
