submissions:

closed (1 November 2023)

Message from the Guest Editors

You are cordially invited to publish your results in this Special Issue on degradation, reclamation and management methods for transformed land.

- Landscape restoration and re-greening.
- Cultural landscape.
- Rehabilitation of degraded areas.
- Revitalization of degraded areas.
- Land degradation and soil rehabilitation.
- Mine closures—flooding and changes in the hydrographic network.
- Water reclamation of the post-mining areas of open-cast mines.
- Ecological restoration of post-mining landscapes.
- Biodiversity and ecosystem service of degraded land.
- Novel ecosystems.
- Spontaneous succession of ecosystems on degraded land.
- Change in economic functions.
- Urban archaeology—historical layers of cities.
- Touristic and recreational use of degraded land.

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120
Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
