Contemporary Cityscape—Structure, Aesthetics, Perception

Guest Editors:

Dr. Maciej Lasocki

**Prof. Dr. José Guadalupe
Vargas Hernández**

**Dr. Martina Koll-
Schretzenmayr**

**Dr. Justyna Zdunek-
Wielgotaska**

Deadline for manuscript
submissions:
closed (31 March 2023)

Message from the Guest Editors

This Special Issue aims to offer insight into the newest research on the contemporary landscape of cities. We would like to study changes in the image of urban spaces that occur due to social, environmental, and economic challenges. How do we manage to control these changes and what do we assume to be a success of such attempts? Does our perception of a city's aesthetics change together with trends of contemporary culture? What does “beautiful city” mean today? What has disappeared and what has emerged in the perspective view of a street?

Research areas may include (but are not limited to) the following:

- Evolving aesthetics of contemporary city;
- Perception of urban space among different groups of society;
- Investigation on changes of city's spatial structure;
- Influence of climate change, the pandemic, and other challenges on a city's structure development;
- New tendencies in urban design, composition, new aesthetic trends;
- New ideas on planning or legal regulations to shape the urban space;
- Experiments with new technologies in shaping the city's image;
- The role of different spatial elements;
- Virtual landscapes of the city.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
