

Ecosystem Services of Rural Landscapes and Green Infrastructures

Guest Editors:

Prof. Dr. Giulio Senes

Prof. Dr. Natalia Fumagalli

Dr. Alexandra Jiricka-Pürner

Deadline for manuscript
submissions:

closed (30 September 2022)

Message from the Guest Editors

Rural landscapes and green infrastructures perform different functions and are bearers of a diverse range of values while delivering a wide range of ecosystem services. Assessment and evaluation of the ecosystem services of rural landscapes and green infrastructures are key factors for a better understanding of the complexity of the interrelationships and, therefore, for more sustainable land-use and urban planning, design, and landscape governance and management.

We invite manuscripts focusing on, but not limited to, the following topics:

- rural landscape ecosystem services assessment
- rural landscape evaluation
- ecosystem services assessment of natural and green areas in rural and urban areas
- green infrastructures for sustainable stormwater management, prevention and minimization of flooding and erosion
- green infrastructures and land take reduction for a sustainable land-use planning enhancing and preserving biodiversity
- green infrastructures and greenways for sustainable tourism
- nature based solutions and green areas for climate regulation and human wellbeing
- natural areas, rural landscapes, and human wellbeing

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
