Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to contribute in this Special Issue (SI) of *Land*, which aims to: (a) promote best practices from the local to the international level, including IT solutions, (b) investigate the interplay among human-induced and natural areas, (c) present mapping, aerial and satellite imagery analysis and remote-sensing methods to support spatial planning, (d) identify wilderness areas in the landscape, (e) highlight the importance of ecosystem services in contemporary development strategies, and policies, (f) integrate natural capital accounting into spatial planning, (g) provide scientific policy evaluation, (h) assess policy implications and governance practice.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: mapping and assessment of ecosystems and their services, ecology, sustainable development, natural resources management, natural capital accounting, spatial analysis, remote sensing, land-use management, policymaking, regional policy.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
