### Message from the Guest Editors

In this Special Issue, we would like to invite you to submit regular research articles and reviews articles on one or more of the following topics of interest (but you are not limited to these):

- Spatial planning, land-use management, and decision making to contribute to, for example, the Sustainable Development Goals 2030, The United Nations Decade on Ecosystem Restoration (2021-2030), and the Paris Climate Agreement: green infrastructure, urban health, coastal pressures, periurban systems, and rural–urban interactions.
- Past and/or future land-use/land-cover change analysis and modeling (using, for example, geocomputation methods).
- Participatory land-use planning (using methods and tools to support multi-stakeholder planning approaches) and systemic thinking.
- Land-use impact analysis and future scenario building.
- Land-use conflicts in future scenarios (e.g., new roles for periurban and rural territories; increasing water consumption in a context of local agricultural systems).
- Land-use and circular-economy planning options.
- Land-use changes and accessibility patterns.

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
