

Special Issue

GeoAI Application in Urban Land Use and Urban Climate

Message from the Guest Editors

This Special Issue seeks to compile high-quality research (original studies and review papers) that deepen our understanding of GeoAI's role in urban systems. Topics of Interest:

- We welcome submissions on the following topics:
- GeoAI for urban land use analysis;
- GeoAI and urban climate studies;
- AI-driven urban growth prediction;
- Remote sensing and deep learning for urban environments;
- Big data and machine learning for urban sustainability;
- Spatial-temporal AI models for urban dynamics;
- Urban heat island detection and mitigation using GeoAI;
- Smart cities and AI-powered urban planning;
- AI-based risk assessment for urban climate resilience;
- Ethical considerations and governance in GeoAI applications.

Guest Editors

Dr. Chunxiao Zhang

Dr. Wei Hou

Dr. Dongya Liu

Prof. Dr. Milan Konecny

Deadline for manuscript submissions

10 July 2026

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
