

## Special Issue

# Biochar-Complemented Compost: Production, Characterization, and Application

### Message from the Guest Editors

We are going to publish a special edition of *Land* to cover the research undertaken in the area of biochar-complemented compost. The Special Issue will cover the production, characterization and application of this material. We are facing a phenomenal increase in organic wastes. On the other hand, areas of degraded land are expanding quickly, thereby affecting their urban, agricultural and industrial use. Compost, biochar or their mixtures are considered as materials for resolving these issues.

---

### Guest Editors

Dr. Naser Khan

School of Chemical Engineering, University of Adelaide, Adelaide, SA 5005, Australia

Prof. Dr. Md. Jakariya

Department of Environmental Science and Management (ESM), North South University, Bashundhara, Dhaka 1229, Bangladesh

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
