

Special Issue

Resilience in Territorial Planning and Architecture: Exploring Themes, Objectives, and Approaches to Go beyond Adaptability

Message from the Guest Editors

This Special Issue focuses on the concept of "Design Resilience", aiming to develop innovative practices that are deeply rooted in the socio-ecological and economic dimensions of territories, landscapes, and objects that impact communities, particular focus on a comparison of models and approaches in diverse geographical contexts, and their relevance and applicability in the context of timely resilience-oriented actions. Potential topics include:

- Mitigation of risks and adaptation strategies in the face of climate change, particularly considering the urgency of achieving climate targets.
- Nature-based recovery and solutions, taking into account ecological values, biodiversity, and community health and well-being, while addressing the challenges posed by climate change.
- Strategies for preserving cultural heritage and supporting communities amidst rapidly changing environments, considering the need for urgent action and resilience-oriented measures.
- Landscape resilience as a frontier for design, linking theoretical concepts with practical applications while acknowledging the importance of efficient and effective solutions in the face of the climate crisis.

Guest Editors

Prof. Dr. Angioletta Voghera

Prof. Dr. Alessandro Melis

Dr. Fabrizio Aimar

Prof. Dr. Daniela Perrotti

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
