Special Issue

Urban Planning and Housing Market

Message from the Guest Editors

This Special Issue will focus on the extent to which urban planning and management systems address complex and dynamic trends on the housing market. How can urban planning effectively cater to housing needs? Can urban planning improve housing affordability and housing supply? What remedial measures can be implemented to prevent spatial, social, and economic segregation in cities? How and where should new housing estates be planned? Can urban densification be reconciled with a high quality of life?

- urban planning
- spatial planning
- housing market
- housing needs
- housing demand and supply
- real-estate value
- spatial analysis

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
