Message from the Guest Editors

We invite submissions which examine the role of psychological and/or social factors on bilingual speech production. We interpret bilingualism in its broadest sense and the Special Issue will include work on bilingual first language acquisition as well as second language acquisition across speech contexts. Such contexts may include, but need not be limited to:

- heritage-language speakers
- minority-language bilinguals
- new speakers
- contexts of tutored and naturalistic second language acquisition
- instances of language attrition
