

Special Issue

Current Issues in Linguistic Landscapes

Message from the Guest Editors

This special issue focuses both on the development of methods in documentation, analysis and visualization of linguistic landscapes and theories/results stemming from these methodologies. To date, research on linguistic landscapes has mainly focused on multilingual and multiethnic urban areas. Hence, we particularly welcome contributions that explore the linguistic landscapes of rural or less populated areas. Finally, we welcome theoretical or empirical papers discussing linguistic landscapes in the light of a global, digital, and mobile world. The themes of this special issue include, but are not restricted, to the following: -Linguistic landscapes in sparsely populated areas -Linguistic landscapes in Indigenous areas -Visualization of linguistic landscapes -Novel approaches to the study of linguistic landscapes -Linguistic landscapes in a global, digital, and mobile era

About the Journal

Message from the Editorial Board

Languages (ISSN 2226-471X) is now in its eighth year since its inception in 2015. It is an Open Access journal which seeks to stimulate debates on key issues in languages and linguistics. We welcome papers at the cutting edge of different fields, ranging from applied linguistics to descriptive and theoretical linguistics. Submissions may consist of research articles and critical reviews as well as proposals for Special Issues where multi-disciplinary approaches and different perspectives on current issues are explored. We invite you to consider *Languages* as a forum for sharing your work.
