Coronary Artery Disease from Pathogenetic Mechanisms to Postoperative Prognosis Research

Guest Editors:

Dr. Aleksei N. Sumin

Research Institute for Complex Issues of Cardiovascular Diseases, Sosnovy Blvd. 6, Kemerovo 650002, Russia

Prof. Dr. Dmitry V. Duplyakov

Department of Internal Medicine, Samara State Medical University, Samara Regional Cardiology Centre, Samara 443095, Russia

Prof. Dr. Alexey N. Repin

Research Institute of Cardiology, Tomsk National Research Medical Center of the Russian Academy of Sciences, Tomsk 634009, Russia

Deadline for manuscript submissions:

closed (25 August 2023)

Message from the Guest Editors

Cardiovascular disease (CVD) is currently the greatest threat to human health. Among them, coronary heart disease is still the main cause of death, research on this pathology is an important task. Not surprisingly, it is in this area that tremendous progress has been made regarding pathogenetic mechanisms, diagnostic, therapeutic and prophylactic methods, as well as coronary revascularization.

The purpose of this issue is to provide an opportunity to publish their research to different groups of researchers involved in the study of the problem of coronary artery disease. These may include both basic research and clinical research on the diagnosis, treatment, and rehabilitation of various forms of coronary artery disease, myocardial revascularization and predicting its outcomes. Also of interest is the problem of comorbidity in patients with coronary artery disease, which may affect the course and prognosis of the disease. Submission of all types of manuscripts including original research and reviews will be possible.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
