## Natural Killer (NK) Cells: From Virology to Cancer Immunotherapy

Guest Editors:

### **Dr. Kiran Kundu**

Department of Stem Cell Transplantation and Cellular Therapy, Division of Cancer Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

### **Dr. Susmita Ghosh**

Department of Surgical Oncology, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

### **Dr. Pulak Ranjan Nath**

Staff Scientist (E), Clinical and Translational Immunology Unit, NEI, National Institutes of Health 10 Center Drive, Bethesda, MD 20892-1857, USA

Deadline for manuscript submissions:

**closed (7 July 2023)**

### **Message from the Guest Editors**

Dear Colleagues,

One of the foremost players of the innate immune system are the natural killer (NK) cells. NK cells have recently been grouped within the innate lymphoid cells (ILCs). NK cells are well known for their cytotoxic function against virus-infected cells and malignant cells.

The goal of this Special Issue is to present original research and review papers discussing the recent advancements in the role of NK cells in viral infections and the mechanisms by which viruses escape NK-cell-mediated killing. There will be scope to discuss the molecular mechanisms behind NK cell suppression in solid tumors, the role of specific NK cell subsets in chronic viral infection or cancer, the evaluation of different phenotypes between protective NK cells (antiviral, antitumoral) and inactivated NK cells, and identifying the signals or interactions that can change the NK cell response from suppression to activation. Finally, we are interested in learning how these learnings can be helpful for NK-cell-based cellular immunotherapy.

## Editor-in-Chief

### **Prof. Dr. Lluís Ribas de Pouplana**

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
